

right time. right place.

EOS-Cloud- Co-location Services for Members

In order to provide our members a low latency trading access, DGCX now offers a hosting services in the same Data Centre (DC) where EOS Platform is hosted to all Members.

In addition to hosting, Members can also avail the DGCX maintained dedicated hardware infrastructure to reduce upfront capital investment.

Leveraging these facilities, Members can now extend services quickly and efficiently to meet their increasing needs.

- Proximity hosting allows members to receive market data faster. It also allows member's application to place, cancel and modify orders quickly to reduce business risks and increase opportunity of winning trades
- Platform As A Service (PAAS) or Infrastructure As A Service (IAAS) reduces initial capital investment and eliminates set-up & maintenance hassles

EOS Cloud – KEY OFFERING

- World class Tier 3 Data Centre
- Low latency (non blocking) network access
- Dedicated fully redundant Internet links or access through Global/Local MPLS Network
- Secured infrastructure
- Affordable costing
- Remote hand support
- Support of PAAS and IAAS Model
